

MILITARY SCIENCE – U.S. ARMY

The Saint Louis University Department of Military Science provides undergraduate and graduate students at SLU the opportunity to earn a commission in the U.S. Army through a program of combined academic study and military officer training. The department offers both lower and upper-division courses.

Enrollment in upper-division courses requires the approval of the professor of military science at Washington University in St. Louis. (Call 314-935-5546 for more information.)

Curriculum Overview

Lower-Division (General Military) Course

Military science courses MILS 1010 through MILS 2020 are basic or general military science courses. Grades earned in these courses will be computed in the student's overall grade point average. Advanced placement for lower-division courses can be granted for qualifying students.

Upper-Division (Professional Officer) Courses

Military science courses MILS 3010 through MILS 5010 are advanced or professional officer development courses. Enrollment requires satisfactory completion of lower-division courses or equivalent advanced placement credit. While some flexibility in scheduling exists, MILS 3010 and 3020 must be taken sequentially.

Requirements
